

MAXimize Your DNA Isolation

30% off MagMAX™ DNA Multi-Sample Kit

Applied Biosystems is pleased to introduce the new MagMAX™ DNA Multi-Sample Kits that provide consistent, reliable, and rapid isolation of highly pure DNA through the use of magnetic-particle technology.

These kits provide:

- **High yields of highly pure DNA**—maximum yields of high-quality DNA for use in routine or stringent downstream applications
- **Compatibility with a wide range of sample types**—purify DNA from blood, tissue, and cultured cells
- **Purified DNA that's ideal for Applied Biosystems workflows**—SNP and copy number assays, high-throughput genotyping, CE and SOLiD™ System sequencing, and high-resolution melting analysis

For enquiries, please contact +65.6896.2168 or via email at abseasales@appliedbiosystems.com

Part No.	Product Description
4413020	MagMAX™ DNA Multi-Sample Kit 50 preps
4413021	MagMAX™ DNA Multi-Sample Kit 96-well plate format
4413022	MagMAX™ DNA Multi-Sample Kit 5 x 96-well plate format

Valid from now till 31 March 2010
